Creating Cash Conversations

Chat GPT CHEAT SHEET

VOCABULARY

- **ChatGPT:** OpenAI's language model designed for natural language understanding and generation.
- **Prompt:** The input text or query given to ChatGPT to generate a response.
- **Fine-Tuning:** The process of training ChatGPT on specific datasets to make it more contextually aware.
- **Tokens:** Units of text that ChatGPT reads, which can be as short as one character or as long as one word.

CORE FUNCTIONALITY

- **Generative Text:** ChatGPT can generate human-like text responses.
- **Multi-Turn Conversations:** It can handle multi-step interactions.
- **Contextual Understanding:** It maintains context and responds coherently.
- **Tone Adaptation**: It can match different tones, including neutral, encouraging, funny, and straightforward.
- **Content Variability:** ChatGPT can generate varied responses to the same input.
- **Prompt Engineering:** Crafting effective prompts is crucial for desired outputs.

LAYOUTS & METHODS

- **Text-Based:** Input and output are in text form.
- **API Integration:** Use OpenAI's API to integrate ChatGPT into applications.
- **Interactive Chat:** Engage in back-and-forth conversations.
- **Single-Turn:** A single prompt with a single response.
- **Multi-Turn:** A series of prompts and responses in a conversation.

KEY TRIGGERS & PROMPT EXAMPLES

- **Content Creation:** "Generate blog post ideas about AI ethics."
- **Customer Support:** "Help a customer with a product issue."
- **Language Translation:** "Translate this English text into French."
- **Code Writing:** "Write a Python code snippet to calculate Fibonacci numbers."
- **Creative Writing:** "Write a short story about a time-travel adventure."
- **Research Assistance:** "Find information about climate change effects."
- **Text Summarization:** "Summarize this article on renewable energy."

TONES

- **Neutral:** Use for factual information and objective responses.
- **Encouraging:** Suitable for motivating or reassuring messages.
- **Funny:** Employ humor or light-heartedness when appropriate.
- **Straightforward:** Use for clear, no-nonsense communication.

ROLES

- **Content Creator:** Use ChatGPT to generate content ideas, articles, and creative pieces.
- **Customer Support Agent:** Assist customers with queries and issues.
- **Language Translator:** Translate text between languages.
- **Programmer:** Generate code snippets or troubleshoot code.
- **Writer:** Collaborate with ChatGPT for creative writing projects.
- **Research Assistant:** Gather information and summaries for research.
- **Marketer:** Create marketing copy, content ideas, and ads.

Act as a [ROLE]:

- CEO
- Lawyer
- Copywriter
- Researcher
- Demand Generation Manager
- Mechanical Engineer

Create a [TASK]:

- Ad Copy
- Analysis
- Article
- A Table
- Blog Article
